

Listening to Horses, Listening to You, Let's Bridge the Gap and Jump The Moon!

Under saddle, on the ground, trainers, students and companions alike

*Blending Animal Communication With Traditional Training and Experience,
we discover answers and guidance to the questions we ask from our hearts...*

- Are my horse's physical, mental and emotional needs being met?
- Why is my horse not performing when the trainer and vet say everything is okay?
- How can I get the most out of my lessons and clinics?
- How can I help my injured horse heal?
- How can I find joy again in my riding
and go to the next level?

Navarre and Kerri

**What would best serve my
partnership with my horse *today*?**

"Kerri has a very gentle, caring and soft way of working with you and your horses. I'm truly looking at life from a different perspective. If you have the chance to spend an afternoon with Kerri, TAKE IT!!!"
